 Programs are made in full-dome, providing a 360 degree experience.

Starry Music 40 min. program including Star Gazing Guide

This show would provide you a relaxing time of watching beautiful paintings and listening to music played by piano, while we would guide you constellations gazed at in Japan and various astronomical bodies in the starry sky all over the world.

THE RED FRONTIER: a tale of adventurers to Mars 40 min. program including Star Gazing Guide

Mars, a world of red desert, is a place where no human has boldly gone before. However, it did have visitors - robotic probes sent from Earth that have made many discoveries on the red planet. And yet another visitor, the Perseverance Rover, was successfully launched on July 30th. Now It's on the way to Mars.

This program will take you on a journey to Mars, reviewing the stories of the past explorers, and introduce the new adventure to be embarked on by the Perseverance Rover.

The program will be narrated by a Japanese engineer at NASA/JPL, Mr. Ono.

We hope you enjoy the trip to the red planet with us.

ICY SATELLITES 40 min. program including Star Gazing Guide

There are hundreds of moons within our solar system.

The moons of Jupiter and Saturn are a great distance from the sun, so we have long believed them worlds of ice. However, recent research has discovered active volcanoes on the surfaces of some moons and oceans of salt water underneath their thick layers of ice.

We would like to take you on a journey to explore these beautiful icy moons.

The adventure to the Moon with Hachi-ko 30 min. program including Star Gazing Guide

Hachi-ko, the most famous dog in Shibuya, will take you to the Moon! What will happen to you?

Please enjoy your space adventure with Hachi-ko !

Cosmo Hoshizora Sampo 40 min. program including Star Gazing Guide

We would like to guide you through the starry night that you can gaze at on the day you visit.

Please enjoy our live commentary.

ALL PROGRAMS ARE IN JAPANESE. THERE ARE NO ENGLISH SUBTITLES.
